

## Collage exhibition #AWorldWhere.."

Welcome to the exhibition #AWorldWhere.

We hope you enjoy these works that have been created by young people aged between 18 and 30 in response to the question: how do you imagine a world where gender equality is a reality?

In this room you can see their answers, which they want to be seen by everyone, including those who make political decisions about the lives and future of humanity. Our commitment is to bring these works to as many people as possible.

As you can see, there are analogue collages as well as digital ones. They all share a positive and vindicative vision, and are a reflection of the diversity that inhabits us.

We are infinitely grateful to all the participants in the contest, who have broadened our horizons. Also to all the people and organisations that have supported us in this initiative to unite art with social action.

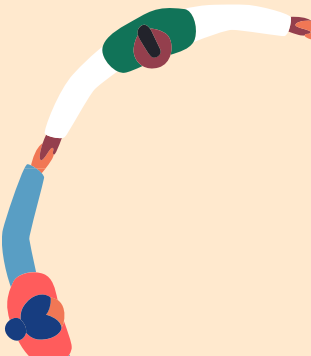

We hope you enjoy this exhibition.
